Dear David,

I want to commend and thank you and your company staff and drivers. Midwestern has given me peace of mind as I could always trust that the job would be done to meet our satisfaction, but in many cases exceed our expectations.

For many years Midwestern has handled various moves for us including our inter-plant movements between Illinois, Tennessee, and Northern Mexico as well as our total plant move. Amstan brokerage service has been excellent and has resulted in very good savings and service. You have handled our shipments without fail, always meeting our needs and requirements. Midwestern and Amstan has continuously been available for emergency services, whatever and whenever we needed. This efficiency is extremely important to our demanding just-in-time operations.

Thanks to you and all of your people for these extra efforts. I am very grateful for your services and a very satisfied customer.

Sincerely,

A handwritten signature in black ink that reads "David Roseberry". The signature is written in a cursive, flowing style.
